COMPUTER SKILLS

BEGINNER	Terraform, Swift
INTERMEDIATE	Golang, Python, BASH & Java PostgreSQL, MongoDB & Neo4j ReactNative, Flutter & AndroidStudio
EXPERT	PHP, JavaScript, Node.js and MySQL

SKILLS

Goal Oriented

I believe in action over long-winded discussions. I listen to everyone's viewpoints and use my judgement to immediately act based on consensus to achieve goals quickly and efficiently.

Passionate

I became interested in science at an early age, learning about the mechanical operation of DVD players. My education and research have solidified this interest into a passion. I really enjoy carrying out projects from scratch in support of specialists in their fields.
